

Grants: Guidance for Organisations

Organisation applications must be for the benefit of groups of young people and not for individuals.

Applications by schools, colleges, clubs, groups, and other organisations are appropriate to the full range of our charitable objectives except for amateur snowsports competitors.

If we do not receive a fully completed on-line application then we will not consider it.

- Young people are defined as being broadly in the age range of 16-25 in the coming snowsports season.
- If the group includes individuals under 16 or over 25 then this must be fully explained in the application. We understand that young people groups are a mix of ages with, often, a proportion of under 16 teenagers. We will consider the group age balance for each application and entirely at our own judgment.
- Group members must be British Nationals normally residing in the UK.
- You should explain what your organisation is, what past relevant activities you have undertaken and what benefits they have brought relevant to our charitable objectives.
- You should attach supporting documents where relevant. Whilst you may provide links to websites, facebook pages etc., you should not rely upon us viewing these in place of a succinct self-contained application. Any attached documents should be easy and clear to read quickly, for instance complex spreadsheets are not helpful.
- You should explain the activity and purpose that you will put any grant towards and what benefit it will bring to those taking part.
- You should explain who is leading the activity, their position and their relevant experience.
- You should explain what grant assistance you are requesting in order for us to consider your application. You should include at the least:
 - Your total budget for the proposed activity with supporting financial evidence.
- The amount that you are applying for (if we award a grant then it may not be this sum but it is helpful to know the scale of support that you are ideally looking for).
- Where the other funding for your activity is coming from, including other grants, sponsorship and corporate support.
- You should explain how your application meets our charitable objectives (although we will probably be able to work it out, it is important that you understand exactly the basis of your application).
- You will provide a Report, after you have used any grant awarded, covering what you have achieved and how the grant has helped you. Photos and videos are much appreciated!
- You will agree to the Skiers Trust contacting you to discuss the Report and agree to the Skiers Trust using the Report, your application and any associated information provided by you as part of its charitable fundraising and promotional activities.
- **Lastly, it is important that you understand:**
 - The Skiers Trust specifically disclaim and accept no responsibility for any claim arising out of or incidental to an activity undertaken due to receipt of a grant and it is a condition of any grant awarded that this is accepted.
 - The information provided with any application needs to be absolutely truthful. Should we find that any information that you give is significantly or materially wrong then we have the right to request repayment of part, or all of the grant awarded made to you.

Giving young people a chance. Snowsports making a difference.
